Description	SMALL	MED	LRG	XLG	XXL
CHEST	21	23	24	26	27
LENGTH	28	29	30	31	32

Understanding our size chart.

Chest... The measurement is taken with the hoodie laying flat and measuring directly under the sleeve or bottom of the arm hole across to the other size. Using an adult medium as the example, the jersey measures 23" across the front, double that measurement which is 46", that is how big around the chest of the shirt / jersey is, not the size chest the jersey will fit.

Length... The measurement is taken with the shirt laying flat from the top of the shoulder against the collar to the bottom of the shirt.
